

Plan your robot!

- Take as many of the character task cards as you need and fill in the gaps on them to determine your tasks!
- For more help fill in the robotics task card!
- Plan the robotics parts you will need!
- Draw your planned robot!

Check how the needed parts work!
Use the basic program ideas!
Dare to experiment!
If you need to, make new task cards or robotic cards to clear uncertainties!

Test your robot!

- Does your robot work as it's supposed to?
- If YES, could you develop anything on it? What?
- If NO, what is the problem? How can it be solved?
- Make **NEW** task cards or robotic cards to clarify the uncertainty!
- Modify your robot or your program and test it again!

Don't worry if you did not finish the task: you can continue next time!
