

# THE PAUL STREET BOYS

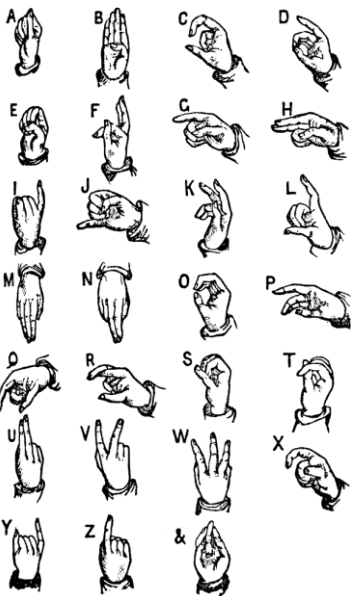

**S3**  
**T1-6**  
**L1**

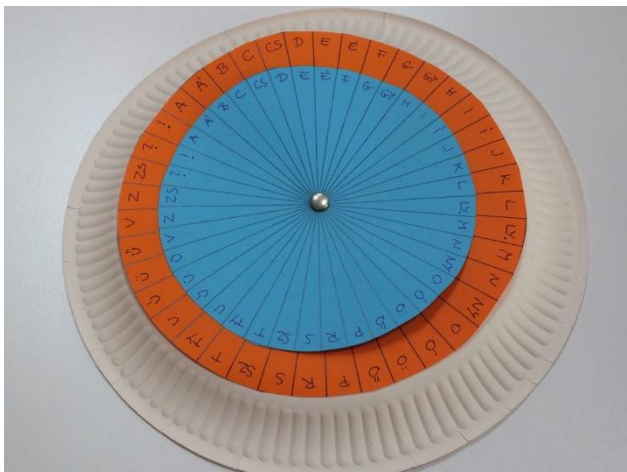

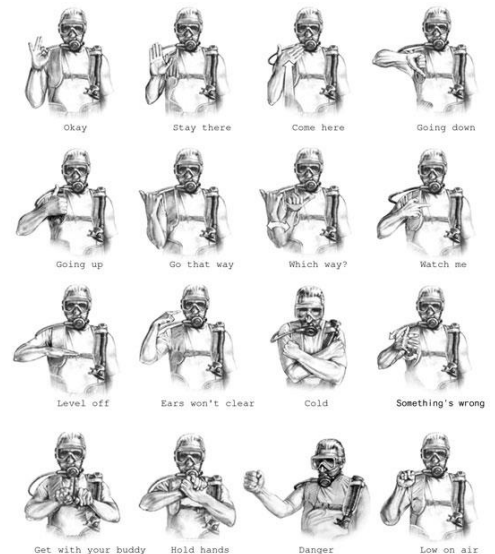

**Create and try different types of coding!  
 You can find some ideas here.**

Use Morse code for sending secret messages! You can string pearls of different colors or shapes together for the two signals: **\_** or **.**

Send messages to each other with hand signs! You can use existing sign languages like on the pictures, or make up your own system!

[https://hallatlan.blog.hu/2013/10/04/jelnyelv\\_vs\\_manualis\\_kommunikacio](https://hallatlan.blog.hu/2013/10/04/jelnyelv_vs_manualis_kommunikacio)

Create your code system using paper plates and color paper! Write the letters of the alphabet on both color paper circles like you can see on the photo. Attach them together in the center and rotate them as you want. Write down the pairs of letters, and use them for coding your message!
