**Plan the scenes for interpreting the story!
Work together with your group mates!**

- Define the tasks and divide them among yourselves!

- Don't forget to choose a person responsible for the workflow, to distribute the tasks! You should listen to that person!

- How will you present your work at the end of the project?

- One of you should make pictures/videos of the making of the work.

Build the story! Work as a group!

Talk with the other groups, so that the characters are similar in size but look somewhat different.

- Determine the most important features of the characters!
- Take into account the connections among people!
- Build the story!

Draw your project: you can foresee the outcome and guide the process!

- What does the environment look like? What does it contain? What would you re-create? How?
- What materials would you use?
