

Dog made of wool

Hofrat Strobl owns a dog, Peterkin. Make your own dog out of wool!

1. You need a sock, preferably in the color of your wool.
2. Cut the sock below the heel and fill it with plastic granules or rice.
3. Tie the sock with a string or sew it closed.
4. Make 9 equal 13 cm long plain tassels using 40 threads (20 turns).
5. Glue 8 tassels all around the body of the sock. Distribute them evenly.
6. Make a large tassel 16cm long and 140 threads (70 turns).
7. Glue this large tassel across the top of the body. This becomes the ears.
8. Take some threads from the front and back and tie them with a bow above the ears.
9. Cut the threads the same length.
10. Glue the ninth small tassel to the front for the snout.
11. Glue on two smaller beads for the eyes and a larger bead or piece of felt for the nose.
12. Trim the hair on the muzzle and ears if necessary.
