Goals of the lesson:

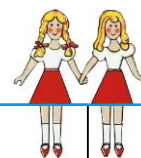

- warm up, introduction, decision making
- choosing the processable text segment
- development of creativity

Activity	Method/Interaction	Output	1. Preparation
Tell some words about the whole 5 lesson long project Create groups: divide the class into 5 groups Read the summary text Decision about the task to be fulfilled	Frontal informations Use group forming ideas from the GTG (appointing, drawing...) Reading frontally or in groups or individually Let the groups to choose or conduct their choice	Students think in a 5 lesson long period Homogenous or heterogenous groups according to your aims Letting students to figure out what could happen just from these few lines.	Time needed: 10 minutes Needed material: the summary text Two separated twins, each living with a single parent and unaware from the other one's existence, meet each other accidentally in a summer camp. They decide to change place. The gentle Lottie travels to her father to Vienna, the chirpy Lisa goes to her mother to Munich.

Activity	Method/Interaction	Output	2. Work on the chosen task
Working on the chosen task	The groups' goal is to represent it through drawing, arts & crafts, building, etc. Allow them to exploit their creativity: their perspective will be used to help them to prepare the forthcoming lessons. Pay attention: how the cooperation in the group works! Help to distribute the tasks, materials if needed!	Do not expect to find wonderful artworks, this task is a kind of brainstorming, in which everyone could explore and, therefore, learn through errors.	Time needed: 25 minutes Needed materials Task sheet, ideas pages Any kind of tools and materials can be used: • Drawing, arts and crafts • ArTeC Blocks • Cardboard • Large scale printed map of Europe and Iberian peninsula • Recycled materials – ask them to bring in school magazines, the clean and reusable „garbage“ from home. Bring some stuff you too!

Activity	Method/Interaction	Evaluation	3. Evaluation
Representation Evaluation	Each groups present their work Discuss with them how they managed to cooperate in the group Ask them to name something that they liked the best of other groups' work	Evaluate the process (the flow, being autonomous,...), the originality (variety of ideas, used materials) and, in particular, the manual ability (precision, efficiency, corners, lines...).	Time needed: 10 minutes

Goals of the lesson:

- warm up, introduction, decision making
- choosing the processable text segment
- development of creativity

In this introduction, prepare students by letting figure out what could happen just from these few lines.

The summary:

Two separated twins, each living with a single parent and unaware from the other one's existence, meet each other accidentally in a summer camp. They decide to change place. The gentle Lottie travels to her father to Vienna, the chirpy Lisa goes to her mother to Munich.

Reading the summary:

- individually
- one can read loudly for the group
- one or you can read loudly for the whole class

Choosing the task:

- The chosen task influences what part of the text the group will elaborate during lesson 2-4.
 - Groups can choose the task themselves. Try to influence them to choose different tasks!
 - You can give the task to each group. This way you can plan the tasks of lesson 2-4. at the beginning of the project.
- To see, what skills can be developed by the different tasks, see pages 2-4!
- Let the children to use their creativity! The aim is not to copy the solutions in the Idea Bazar! These are only hints!
- Their perspective will be used to help them to prepare the forthcoming lessons.
