

Čajové popoludnie

Na stole sú čajníky. Vedľa každej kanvice by mal byť umiestnený filter. Čísla na okraji mriežky označujú počet čajových vrecúšok v príslušnom riadku alebo stĺpci. Každý filter by mal byť umiestnený v jednom zo štyroch susedných políčok kanvice – vodorovne alebo zvisle, nie však šikmo. Čajové filtre by sa nemali navzájom dotýkať, a to ani diagonálne (svojimi rohmi).
