

Treasure chest

Make a treasure chest

1. Take a sheet of brown construction paper, dip a kitchen roll or sponge in acrylic paint and create the grain.
2. Stick the dried construction paper onto a shoe box - it's best to start with the bottom side. Glue the excess paper at the top to the inside of the box.
3. Repeat the same with the lid.
4. Cut long strips out of golden construction paper, stick them onto the box as buckles, decorate with Edding pens or golden splints.
5. Paint a lock on the remaining brown construction paper, decorate it in black paint and stick it in the middle of the long bottom of the shoe box.
6. Glue red tissue paper to the inside of the treasure chest as a lining.
