

KELOĞLAN AND A MAGICAL BOWL

Group:

S17
T1-4
L1

This is the story of a poor Keloğlan, a very good person, living with his mother in the village. When he unexpectedly comes across a magical bowl, his life changes. This magical bowl; It makes Keloğlan a different person and changes it. With this story, you will discover what processes Keloğlan went through with the decisions he made. Become a part of Keloğlan with this story!

I work on:

I1

Create the theme in your story with Artec blocks.

You can use colour paper, recycled materials, textiles, glue, crayons, boxes, sand, building blocks, plasticine, etc.

Some ideas – make a puppet

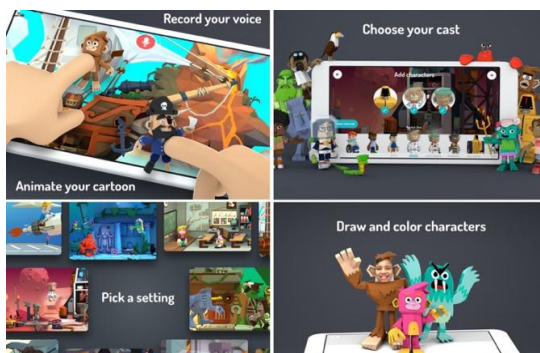

Color this figure, cut the pieces out with the scissors, and attach them with brads!

14

Make a group with your friends as many as the number of characters in the Keloğlan story. Write your Keloğlan story on a piece of paper. Identify on the paper the names and sentences of the people who will portray the characters in your story. Then create your fun 3D Keloğlan cartoon with the Toontastic program.

Some ideas – Toontastic 3D animation program

Build a maze game out of cardboard. Determine the start and end point of the maze. Tell the Keloğlan Story. Prepare questions from within the story. Set a time based on the number of questions you have. In this time, the one who knows the questions correctly will reach the finish line by moving through the maze. The one who knows wrong should try to get out of the labyrinth by trying to be right.

Build a maze out of cardboard.
