

Build your own solar system!

Make a solar system using papier-mâché techniques!

- Make the planets!
- Paint them according to their characteristics!
- Hang them from the ceiling in the correct order!

What will you need?

- Balloons inflated to different sizes
- Small pieces of torn newspaper
- Wallpaper paste, water
- 2 bowls
- Paint, paintbrush
- String for hanging

THE LITTLE PRINCE

Group:

S22
T1-4
L1

Explore the Solar System with your robots!

Number the planets in order of distance from the Sun!

- Mercury: - Venus:
- Earth: - Mars:
- Jupiter: - Saturn:
- Uranus: - Neptune:
- Pluto

Your robot will travel through the planets using codes.

Program your robot so that it travels through the fields marking the planets in the correct order!
