

Group:

Make a mosaic picture!

You can use pieces of coloured paper, or broken coloured tiles, pebbles or coloured beads, caps.

Make a Greek vase!

You can use air-drying ceramic or plasticine, or even salt and flour plasticine.

- Shape the vase!
- If necessary, paint it orange or brick-coloured!
- Use black to paint patterns on it!

Group:

Make a Greek vase with dice rolls!

Use the template below, which you can find at the following location:

<https://www.teacherspayteachers.com/Product/Roll-and-Draw-Ancient-Greek-Pottery-Letter-size-4197070>

Roll the dice several times in a row!

With the first roll, you choose the shape of the vase, with the second and third rolls you choose the sequence patterns, and with the last 3 rolls you choose the scenes that decorate the vase.

You can draw the vase on yellow paper in black or on white paper in yellow and black.

You can also make your own template, with different finger patterns and different scenes.

How many vases were made in the class?

Are there two alike?
